19. (Once Amended) A method of using a computerized system to dynamically [managing] manage favorite channel lists relating to a user specified theme, the method comprising [the steps of]:

identifying one or more channels showing an event of a user specified theme, wherein the step of identifying is achieved by matching one or more event themes from an electronic program guide (EPG) content database to the user-specified theme, and including each one of the channels in a favorite channel list.

a4  
25. (Once Amended) A computer readable medium having computer executable instructions stored thereon for execution on a computer, the computer executable instructions comprising [the steps of]:

identifying one or more channels showing an event of a user specified theme, wherein [the step of] identifying is achieved by matching one or more event themes from an electronic program guide (EPG) content database to the user-specified theme, and including each one of the channels in a favorite channel list.
